

## Again

I used, again

I had sex with my dealer, again

I got endocarditis, again

I miss my son, again

I don't feel 25, again

I'm lonely, again

I used because I'm depressed, again

I think I'm pregnant, again

Can you check for HIV and Hep C, again?

I want to be well, again

I lost weight, again

I feel old, again

My family has had it, again

I'm back on methadone, again

I really, really want to be better,

Again.
